Please make note of the fact that the above Taxi Services are based within the Kingston/St. Andrew area. So whereas they may have no problem taking you out of town, its unlikely that you will be able to call them for pickup if you are already outside of the Kingston/St. Andrew area.

It's very easy to get cheap mobile phones in Kingston. So pick one up and keep it handy in case you need to call a cab while you're out. On the other hand, you can plan ahead and check the Internet for companies offering taxi hire service in your area. This option can be essential in making your Jamaican night out worthwhile and more enjoyable.

For persons based in Ocho Rios, Negril, Montego Bay etc, your best bet may be to take a walk out to your nearest Taxi Stand and get a cab from there. If you are staying at a hotel or villa you may ask the receptionist for the contact information for a reliable taxi service operator in your area; he/she will most likely have this information on hand.
